DOOR CANOPIES

HIGH QUALITY DOOR CANOPIES

Engineered in the UK

PRO-CAN

DOOR CANOPIES

GREAT FOR QUALITY

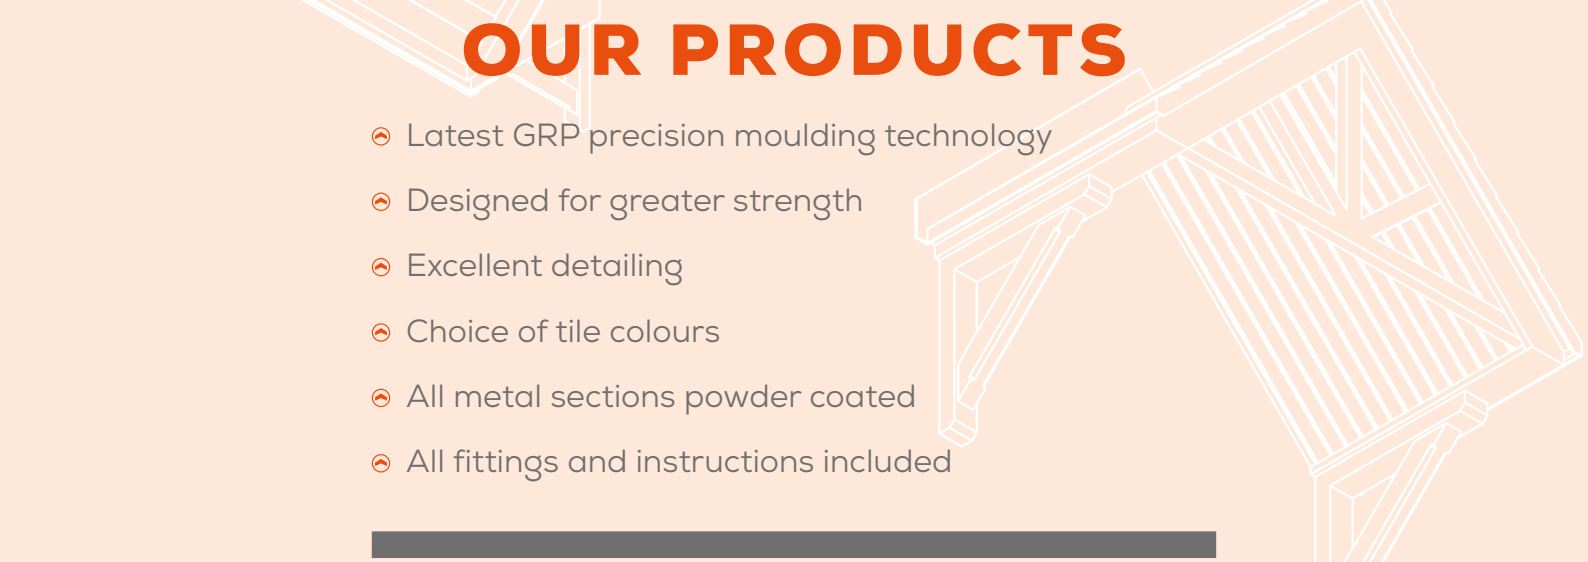

Pro-Can canopies are some of the best available. We don't compromise on quality. Our Clear Top canopies are made from 8mm, high quality polycarbonate; our GRP canopies have a minimum thickness of 3mm and are injection moulded for quality consistency.

FITTER FRIENDLY

Pro-Can canopies include full fitting instructions and all the quality fittings you need to get the job done. We've made the fitting process easy and the fittings themselves are more than tough enough for the job.

OUR PRODUCTS

- 
- ⦿ Latest GRP precision moulding technology
 - ⦿ Designed for greater strength
 - ⦿ Excellent detailing
 - ⦿ Choice of tile colours
 - ⦿ All metal sections powder coated
 - ⦿ All fittings and instructions included
-

OUR MANUFACTURING

- 
- ⦿ Made in the UK
 - ⦿ Made under Quality and Environmental Management systems
 - ⦿ Any timber we use is responsibly sourced

CLEAR TOP FLAT & ARCHED CANOPIES

Clean and lean, these canopies are contemporary and smart. There are two styles and each one is available in three different lengths and two different depths.

The frames are made from good quality steel and powder coated in silver for a long lasting finish that looks excellent. The polycarbonate cover is 8mm thick, twice as thick as some canopies available today and is UV protected for long term performance. Each canopy comes with a full set of instructions and a strong fixing kit.
